

People Planning Together

Train the Trainer

What is PPT?

People Planning Together, also called PPT, is a training for people with disabilities. It is taught by two people; one who has a disability, and one who does not. The class helps people identify what is meaningful to them and what they want in their lives. Through activities and discussion, people in the class get a deeper understanding of what is important to them and for them. They use this information to develop a plan with meaningful outcomes for their life.

Who can become a trainer?

Lead trainers are people with disabilities. They should have an interest in sharing their life in front of a group. Co-trainers support lead trainers.

How can I become a trainer?

PPT is a 16 hour course that will be offered later this year. Join us at a Question and Answer Session to learn more. Questions? Email CortneyKressin@ArcMinnesota.org.
