

The Arc Minnesota

Disability Rights Are Human Rights

The Arc Minnesota promotes and protects the human rights of people with intellectual and developmental disabilities (IDD), actively supporting them and their families in a lifetime of full inclusion and participation in their communities.

How can The Arc Minnesota help you?

As part of The Arc's commitment to progress, we want to learn about the perspectives of people with intellectual and developmental disabilities as well as their family and community members. In particular, we want to hear from underrepresented communities in order to advocate for greater equity and inclusion within services and support systems for people with disabilities.
